An aerial night photograph of a soccer field. The field is illuminated by stadium lights, with the pitch appearing as a bright green rectangle. White lines mark the field boundaries, the center circle, and the penalty areas. Two goals are visible at the top and bottom edges of the field. The surrounding area is dark, with some streetlights and a road visible on the left side. The text "BVP525 A35-NB +LO optics" and "200lux average" is overlaid on the right side of the field.

An aerial night-time photograph of a rectangular football pitch. The pitch is illuminated by six floodlights positioned around its perimeter: three along the top edge and three along the bottom edge. The pitch itself is a vibrant green, with white lines marking the center circle, the halfway line, and the two goal areas. At each of the four corners of the pitch, there is a small, green, rectangular structure, likely a corner flag or a small shelter. The pitch is surrounded by a dark, paved area. Outside the pitch, there are various structures: a small yellow building on the left, a larger dark building with a grey roof at the bottom, and some trees and bushes on the right. The overall scene is a well-lit sports field at night.

This is an aerial night photograph of a large outdoor sports field, likely for soccer or football. The field is illuminated by several tall, modern light poles with multiple fixtures, casting a bright, even glow across the green grass and white field markings. The field is surrounded by a dark perimeter fence. In the background, a city skyline is visible with numerous lights from buildings and streets, creating a bokeh effect against the dark sky. The overall scene conveys a sense of a well-maintained, modern sports facility operating at night.

An aerial night photograph of a soccer field. The field is illuminated by several tall stadium lights, creating a bright green surface. The field is surrounded by a fence and a road. In the background, there are residential houses with lights on, and a city skyline is visible in the distance. A large yellow building is located in the bottom right corner of the field. The text "BVP525 DX50 optics" and "200lux average" is overlaid on the field.
